

Watch Size Guide

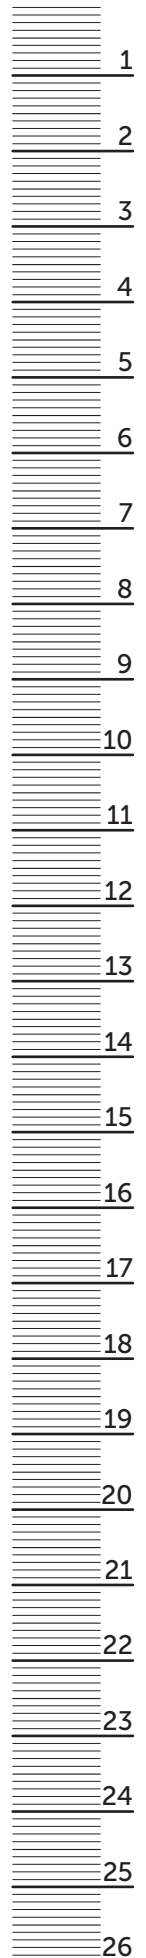

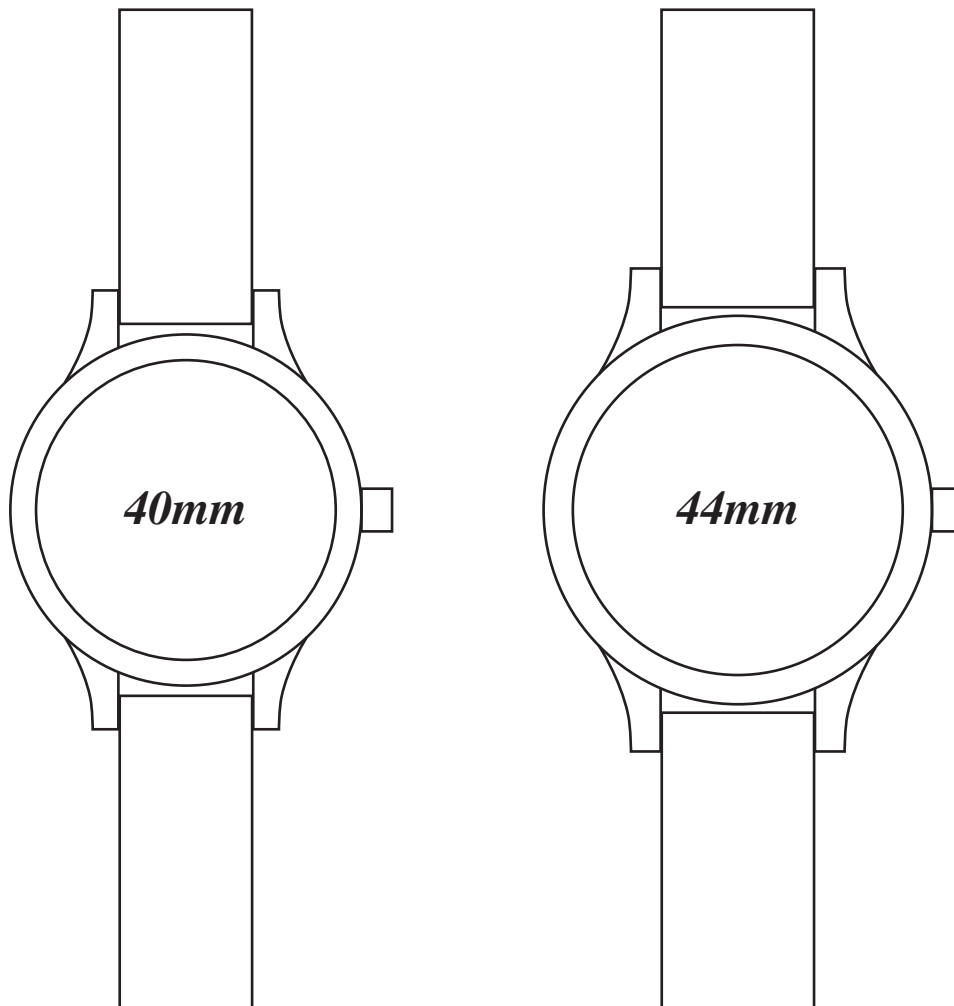

Please use this size guide if you are in doubt about the fit of a particular watch size for your wrist.

This is a guide only - remember your wrist shape as well as its size will determine how a watch looks on your arm.

The templates are to actual size so all you need to do is:

You might also want to cut out the measuring tape on the right to determine your wrist circumference.

- Print the template - **Make sure the print settings are set to 'Actual Size' or '100%'** scaling. If in doubt, please double check the tape on the right with a flat ruler.
- Cut out the watch image/s and place on your wrist.

Remove to use as measuring tape
